

Quality and Environment Management System Policy

BOWA POLSKA Sp. z o.o. is a production and service company cooperating with the major global automotive industry clients and healthcare industry resellers.

Our leading products are brake pad wear indicators, plastic components and wire harnesses.

We are regarded as a reliable and trustworthy partner on the international market. Our aim is to uphold our reputation while providing a sense of security and stabilisation to our employees.

We work under an integrated Quality and Environment Management System, compliant with ISO 9001:2008, EN ISO 13485:2003/AC:2009, MHLW Ministerial Ordinance No. 169, 2004, ISO/TS 16949:2009 and ISO 14001:2004.

Our main goal is to meet the needs and requirements of our clients, at the same time generating profit and limiting the negative environmental impact of our actions.

This is achieved by:

- ✓ delivering products of the highest possible quality,
- ✓ promoting a sense of responsibility among the employees regarding the quality of their work,
- ✓ striving to avoid mistakes according to the "Zero Mistakes" rule,
- ✓ regular development of the Quality and Environment Management System,
- ✓ maintaining an effective Quality and Environment Management System for healthcare product manufacturing,
- ✓ preventing pollution,
- ✓ supervising work equipment and gradual upgrading of technical equipment,
- ✓ fulfilling the legal requirements and other regulations on our activity and its environmental aspects,
- ✓ rational management of waste disposal,
- ✓ increasing our financial returns.

The Management Board declares its full support and commits to providing the resources necessary to guarantee further maintenance of an effective Quality and Environment Management System, meet its requirements and maintain its continuous development.

Management Board
